risk and reward profile

Risk indicator is presented in accordance with the Key Information Document. The indicator is calculated based on the historical volatility of the subfund's rates of return resulting from the implemented investment policy and may change in the future. Even the lowest risk category does not mean that the sub-fund is risk-free. Other risk factors related to investing in the sub-fund, which are not included in the indicator, are presented in the Key Information Document and the Fund Prospectus.

investor profile

The subfund is targeted at an investor who:

- is looking to achieve, in 3-year periods, a rate of return as close as possible to that achieved by the FTGF Putnam US Research Fund,
- accepts high investment risk,
- expects an increase in the value of capital thanks to investments – through the underlying sub-fund – primarily in large equities of US companies which, in the opinion of the investment team, are undervalued and/or have a potential for growth,
- seeks investment solutions that promote environmental and social aspects or take into account ESG factors in management.

This is an investor who expects a significantly higher rate of return in the long term than from bank deposits, cash funds, money market, debt and mixed funds, and is ready to incur significant losses in the short term in anticipation of long-term returns. Owing to its investment policy, the fund's performance may exhibit above-average volatility. The sub-fund may be intended, among other things, for systematic savings within long-term saving and pension programmes (CPO, IKE, IKZE).

The sub-fund performance should not be assessed in periods shorter than 3 years.

investment process

The sub-fund invests between 70% and 100% of its assets in titles of **FTGF Putnam US Research Fund** (the "foreign sub-fund") segregated within Franklin Templeton Global Funds plc.

The underlying sub-fund invests at least 80% of its net asset value primarily in US equities. The underlying sub-fund will invest in equities of large companies that the management team considers to be undervalued and/or have growth potential, mainly so-called blue-chip leading in their industries. Portfolio managers of the underlying sub-fund will seek to focus on companies that they believe are well-established and industry leaders. Up to 20% of the Net Asset Value of the underlying Sub-Fund may be invested in the securities of companies or issuers located in developing countries, Emerging European Countries and Emerging Asia/Pacific as identified in the Franklin Templeton Global Funds plc prospectus.

The objective of the sub-fund is to generate capital appreciation by increasing the value of its investments. The sub-fund tracks as closely as possible the performance of the **FTGF Putnam US Research Fund**. The net asset value of ESALIENS American Equity may exhibit high volatility.

The sub-fund is actively managed.

The participation titles of the underlying sub-fund purchased in foreign currency and are not hedged against currency risk in relation to PLN.

- **SFDR classification** – the sub-fund is a light green investment product as defined in Art. 8 of the SFDR Regulation, in respect of the assets of the underlying sub-fund.

important information – read carefully

This is an advertising information. This material does not contain sufficient information to make an investment decision. The promoted investment means the purchase of participation units.

Detailed information concerning ESALIENS American Equity (the "Sub-fund") within ESALIENS Umbrella Foreign Specialized Open-End Investment Fund (the "Fund") is included in the Prospectus and the Key Information Document available on the www.esaliens.pl website, at individual fund distribution outlets as well as in written form in the registered office of ESALIENS TFI SA (Warsaw, 11a, Warecka Str.). The Prospectus as well as Key Information Document include the data required to evaluate an investment, outline the risks connected with participation in the fund, and inform on the related costs, charges and taxes. **Before investing in the Sub-fund, you should read the Prospectus and the Key Information Document issued for the selected Sub-fund unit class.**

Past performance is no guarantee of future returns. The Sub-funds' performance is reported before capital gains tax and the fees related to the investment units offered. Individual return rates depend on the unit purchase and redemption dates as well as on the amount of administration fee charged and the amount of tax due. The Fund does not guarantee that the Sub-fund's investment objective or a specific investment result will be achieved. Fund participants must take into account the possibility of losing at least part of their investment.

The Fund invests assets of the Sub-fund mainly in instruments other than securities (except for participation titles in foreign funds) and money market instruments. The Fund allocates the Sub-fund's assets mainly in participation units of FTGF Putnam US Research Fund operating within the framework of Franklin Templeton Global Funds plc. The underlying Sub-fund, which is the main investment instrument, is described in the Fund's prospectus. The net asset value of the Sub-fund may exhibit high volatility owing to the composition of the investment portfolio.
